

Trade and Money Management The Proper Mindset

Trade and money management is the variable that will give you the biggest edge in trading.

Money Management is a key factor for success when running any business – including trading and investing.

Ignoring this important aspect of trading will ensure your failure.

Money Management is directly connected to trade psychology

In this short course, we we discuss the essentials of money management, some Green Room trades and answer questions.

Enter and Manage per your Trading Plan, unemotionally and objectively.

Money Management is the key to doing that!

- Learn:**
- Master Trader’s Techno-Fundamental approach to swing and core trading.
 - How to properly position size for the trade and your account size to protect capital.
 - How to follow the trend being traded without indicators.
 - How to take the emotional extremes out of your trading.
 - How we objectively scan the broader markets and sectors to find new opportunity in real-time.

Swing Trading Course

Swing Trading Strategies is precisely designed for traders and investors wanting to create wealth and income holding positions a few days to weeks.

The course teaches you a thought process by building technical concepts upon each other to be a profitable swing trader - and without spending a lot of time in front of a trading screen.

Mastering Advanced Credit Spreads

Is precisely designed for the traders and investors wanting to generate weekly income from high probability short-term option selling.

The MTM strategy and statistical “edge” that exists in selling options around Master Trader chart patterns means income trades are always available.
