Dedication

This book is dedicated to the few serious Commodity Price-Action Researchers who spend countless hours pursuing the rhyme and reason of market action. The search for practical Truth in the chaos of market action is truly a Labor of Love. Yet the truth does exist, and with its discovery, surely public trading in Commodities will be outlawed forever . . .

I wish to express sincere appreciation to the many Trident Students and friends throughout the United States and Canada whose inspiration and enthusiasm made this book a reality . . .
